PREMIUM SOFTWARE

Created to powerfully impact the cultural sector.

Cultural institutions benefit from software that enables a seamless and intelligent connection between their online presence and its visitors. An integrated website, mailing, online ticketing and digital marketing solution provides your audience with a professional and well-functioning process.

Website

Create a personalised web experience for a smooth customer journey and profit from our continuously expanding library of functionalities.

Data Hub

All your data and content connected. Simplify mutual processes between web, ticketing, planning, mail and digital signage.

THE PEPPERED SUITE

Mailing

Have a hassle-free mail setup and enhance the relationship with your visitors by easing communication.

Digital Signage

Efficient and easy use of digital screens, connected to data from your website.

Marketing Automation

Unlock the full potential of visitors' online engagement with automated emails and personalised web content.

SUBSCRIPTION BASED, ALL INCLUSIVE, CAREFREE

Top-notch technology

Our software is updated every three weeks, ensuring a fully up-to-date product

Collective approach

We use our wide cultural network to expand and share our knowledge and inspiration

Tailored to your organisation

A shared technological framework, personalised according to your organisation's wishes and needs

5-star support

From the technological implementation to a 24/7 available service desk, training courses, webinars and annual check-ups
